

SUMMARY OF POTENTIAL IMPACTS

Resources		Alternative 2 Widen Existing US 219	Alternative 3 Existing Interchange with Local and Relocated US 219	Alternative 4 Roundabout Interchange with Local and Relocated US 219
Community Effects				
Residential	Displacements	4 ¹	3 ¹	3 ¹
	No. of Impacts	25	9	9
	Total Acres	5.2	5.7	5.9
Commercial	Displacements (buildings/businesses)	3 ¹	1 ¹	1 ¹
	No. of Impacts	16	5	5
	Total Acres	16.8	40.0	45.7
Community Facilities	Displacements	0	0	0
	No. of Impacts	2	1	1
	Total Acres	1.2	0.5	0.6
Parks and Recreation	Displacements	0	0	0
	No. of Impacts	0	0	0
	Total Acres	0	0	0
Historic/ Archaeological	Displacements	0	0	0
	No. of Impacts	2	2	2
	Total Acres ²	46.9	58.3	85.8
Right-of-Way (Acres)		25.3	56.5	59.6
Natural Environment				
Streams (linear feet)	Permanent	233	756	3,449
	Temporary ³	223	223	223
Wetlands (acres)	Permanent	0.1	0.7	1.0
	Temporary ³	0.4	0.4	0.4
100-Year Floodplains (acres)		0.2	0.2	0.2
Forest (acres)		10.8	23.0	21.7
Green Infrastructure (acres)		0.1	0.2	0.2
Estimated Total cost (million \$)⁴		\$40-50	\$55-65	\$70-80

¹ The Hilltop Centre building, which would be displaced under all build alternatives, is a single structure that contains 1 residence and 4 businesses.

² Total acres of impact to historic/archaeological sites exceed the total acres of right-of-way required because the National Register boundary of Little Meadows/Tomlinson Inn includes substantial amounts of land already within SHA right-of-way.

³ Temporary impacts for each alternative include 223 l.f. of stream impact and 0.4 acre of wetland impact directly resulting from stream restoration activities.

⁴ Costs are for 2016 and are not for the year of expenditure. Costs shown include Design and Construction costs, but do not include Right-of-Way costs.
